

## kit instructions

## Materials

### 1. Choose the photographs

Choose the photographs for the project.  
-You can make more impressive project by using the photographs from the same theme or event with different angles and sizes.

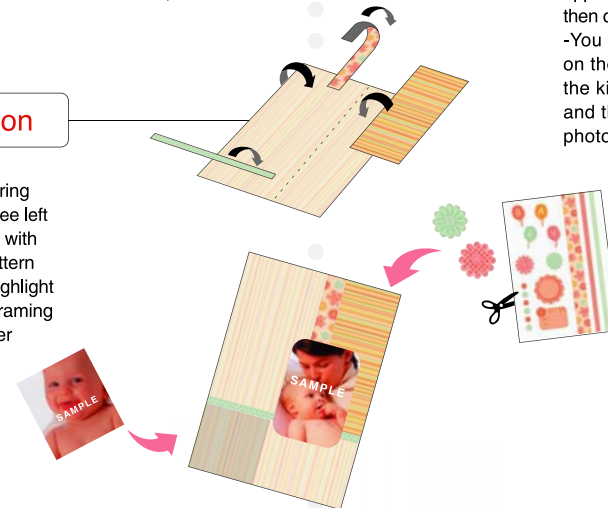

### 2. Download

Look for a kit, which is the same theme or color appeared in the photographs, then download it.  
-You can have unified tone on the project by selecting the kit of the same theme and the color tone with the photographs.

### 3. Decoration

Fix the layouts of the photographs by referring the sample project (see left side), then decorate it with borders, tags, and pattern paper etc...-You can highlight the photographs by framing with the pattern paper and borders.

### 4. Choose font

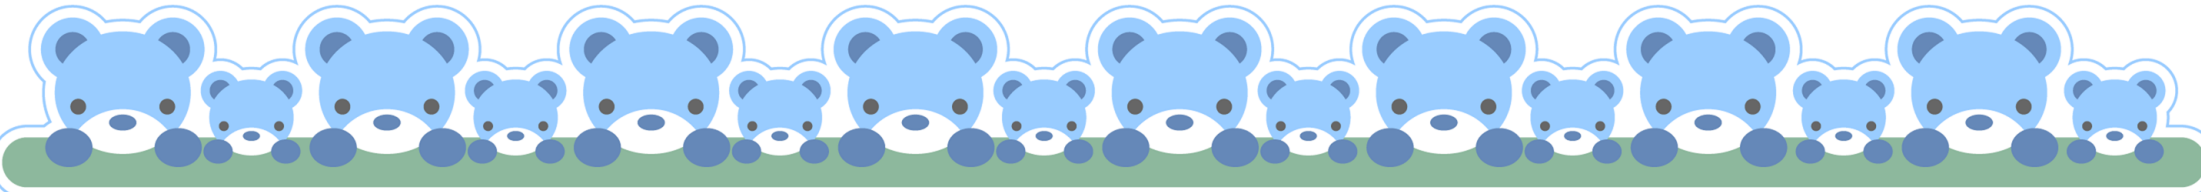

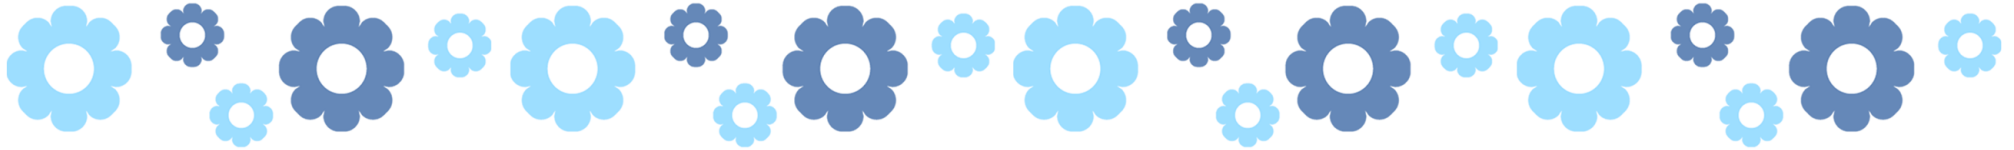

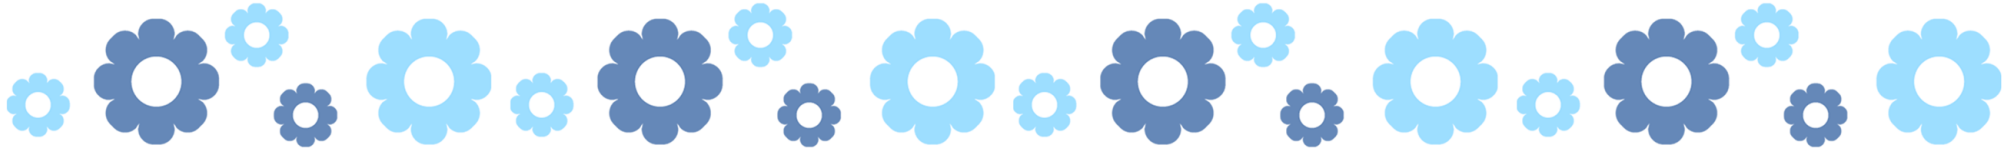

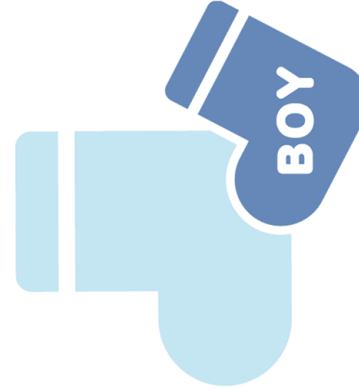

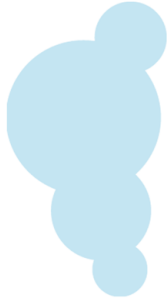

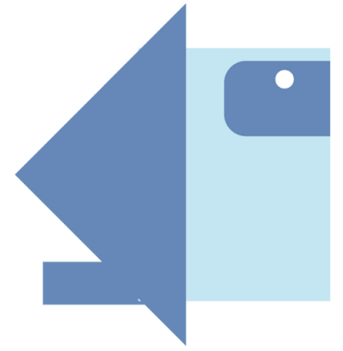

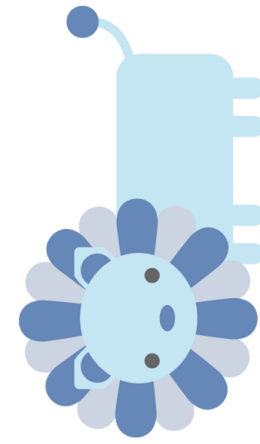

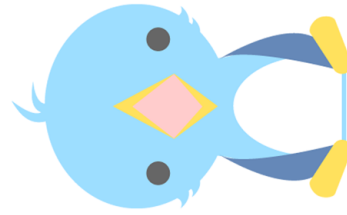

Choose font, which fits in the project theme well.

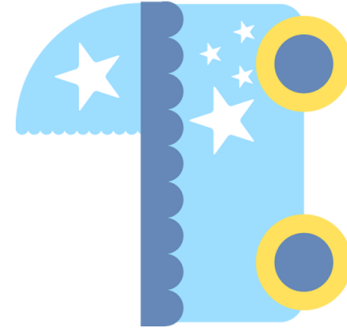

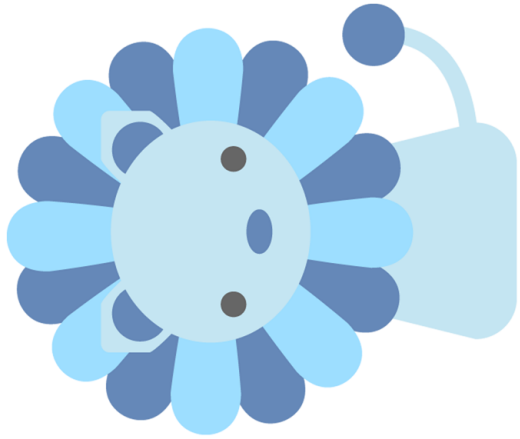

SWEET

### 5. Write your journals

Write your journals on the tags and/or the spaces on the project.-You can add more personal and memorable feelings to the project by writing your own journals.
